Before you invest in any fund, consider how the fund would work with your other investments and your tolerance for risk.

This mutual fund is an alternative mutual fund. It has the ability to invest in asset classes or use investment strategies that are not permitted for conventional mutual funds. The specific strategies that differentiate this fund from conventional mutual funds include: increased use of derivatives for hedging and non-hedging purposes; increased ability to sell securities short; and the ability to borrow cash to use for investment purposes. While these strategies will be used in accordance with the fund's investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value.

This Fund has obtained exemptive relief to permit it to utilize market-neutral investment strategies pursuant to which the Fund may engage in the short selling of securities with a market value of up to a maximum of 100% of the net asset value of the Fund (subject to a combined limit on short selling and cash borrowing of 100% of its net asset value). This short selling limit is greater than the limits permitted under applicable securities legislation for conventional mutual funds as well as alternative mutual funds.

WHAT DOES THE FUND INVEST IN?

The investment objective of Arrow Long/Short Alternative Fund is to achieve superior capital appreciation over both short and long term horizons primarily through the selection and management of a concentrated group of long and short positions in Canadian equity securities and equity derivative securities.

The fund will use leverage. The leverage will be created through the use of cash borrowings, short sales and derivative contracts. The fund's aggregate exposure is calculated as the sum of the following, and must not exceed 300% of its net asset value: (i) the aggregate market value of the fund's outstanding indebtedness under any borrowing arrangements; (ii) the aggregate market value of all securities sold short; and (iii) the aggregate notional amount of the fund's specified derivatives positions, minus the aggregate notional amount of the specified derivative positions that are hedging transactions.

HOW RISKY IS IT?	RISK RATING
<p>The value of the fund can go down as well as up. You could lose money.</p> <p>One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".</p> <p>In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money</p>	<p>Arrow has rated the volatility of this fund as low to medium.</p> <p>This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.</p>  <p>For more information about the risk rating and specific risks that can affect the fund's returns, see <i>"What are the Risks of Investing in the Fund?"</i> section in the fund's simplified prospectus.</p> <p>No guarantees Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.</p>

HOW HAS THE FUND PERFORMED?
<p>This section tells you how Series F units of the fund have performed over the past 10 calendar years. This is based on the performance of the corresponding series of Arrow Long/Short Alternative Class, which was merged into the Fund on June 24, 2024. Returns are after expenses have been deducted. These expenses reduce the fund's returns.</p>

Year-by-year returns

This chart shows how the fund has performed in each of the past 10 calendar years. This is based on the performance of the corresponding series of Arrow Long/Short Alternative Class, which was merged into the Fund on June 24, 2024. The fund dropped in value in 2 of the 10 calendar years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series F units of the fund in a 3-month period over the past 10 calendar years. This is based on the performance of the corresponding series of Arrow Long/Short Alternative Class, which was merged into the Fund on June 24, 2024. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invest \$1,000 at the beginning of the period
Best Return	19.0%	January 31, 2021	Your investment would rise to \$1,190
Worst Return	-9.6%	December 31, 2018	Your investment would fall to \$904

Average return

A person who invested \$1,000 in the fund on April 30, 2015 would have \$1,890 on April 30, 2024. This works out to an annual compound return of 6.6%.

WHO IS THIS FUND FOR?	A WORD ABOUT TAX
<p>Investors who:</p> <ul style="list-style-type: none"> Are looking for a medium to long term investment Want to invest in a diversified portfolio of equity and fixed income securities Are comfortable with a low to medium risk level <p>! This series is not appropriate if you require income from your investment</p>	<p>In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.</p> <p>Keep in mind that if you hold your fund outside a registered plan, fund distributions are included in your income for tax purposes, whether you get them in cash or have them reinvested. If you hold your fund inside a registered plan, you will include fund distributions and other amounts you withdraw from your registered plan in your income for tax purposes. Different rules apply for Tax-Free Savings Accounts.</p>

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series F units of the fund.

The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

Sales charges

No sales charges apply when you purchase Series F units of the fund.

Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

As of December 31, 2024, the fund's FER was 2.00% of its value. This equals \$20.00 for every \$1,000 invested.

	Annual Rate (as a %)
Management Expense Ratio (MER) This is the total of the fund's management fee and operating expenses	1.11 %
Trading Expense Ratio (TER) These are the fund's trading costs.	0.89%
Fund Expense Ratio (FER)	2.00%

Performance fee

The fund will pay to Arrow in respect of each calendar year of the fund a performance fee per unit equal to 20% of the amount by which the Adjusted Net Asset Value (as defined in the prospectus) per unit at the end of the fiscal year exceeds the highest year end Adjusted Net Asset Value per unit previously achieved. No performance fee will be payable unless the Adjusted Net Asset Value per unit at the end of such fiscal year exceeds the Net Asset Value per unit at the end of the preceding year (or on the date the units are first issued), adjusted for distributions, by a minimum of 6% (the "Hurdle Rate"). The performance fee will be estimated and accrued each Valuation Date. If any units of the fund are purchased during the calendar year, the Hurdle Rate will be prorated in the calculation of the performance fee with respect to those units. If any units of the Fund are redeemed prior to the end of a calendar year, a performance fee will be payable on the redemption date in respect of each such units.
