The payment of distributions is not guaranteed and may fluctuate. The payment of distributions should not be confused with an Exchange Traded Fund’s performance, rate of return or yield. If distributions paid by the Exchange Traded Fund are greater than the performance of the Exchange Traded Fund, your original investment will shrink. Distributions paid as a result of capital gains realized by an Exchange Traded Fund, and income and dividends earned by an Exchange Traded Fund are taxable in your hands in the year they

are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, you will have to pay capital gains tax on the amount below zero.
